SUMMARY

Web developer with a recent Certificate in Full Stack Development from Rutgers University, where skills were developed in React.js, Javascript, CSS, and responsive web design. Subsequently, creating applications that provide for an impactful user experience while also contributing to a team that makes innovative advancements to web applications is imperative. Overall, implementing said technical skills as a web developer at a company where one can exhibit passion, learn, and grow with a quality driven team to master the craft would be an honor.

TECHNICAL SKILLS

Languages: Javascript, SQL, NoSQL, HTML, CSS

Tools & Frameworks: React.js, Node.js, Express, MongoDB, MySQL, Git, JQuery

PERSONAL PROJECTS

WatchHub | <https://watchhub-jbs.herokuapp.com/>

Group Project
